## Who we are.

Podion Global is an Australian company that design and manufacture technology enabled furniture. We've been exceeding the expectations of teaching, learning and work environments for over 35 years. Our recognition as global market leader is evident with the inclusion of our furniture in health, education, government and corporate spaces around the world.

Our range of solutions includes collaborative furniture, touch down points, spec stands, camera and screen lifts and control panel housings. Our lectern range offers innovative AV & IT integration with extensive custom styling and functionality options for fast delivery worldwide.

We also offer comprehensive bespoke 'made to order' solutions and a space planning service for those with unique needs.

Our talented in-house design team are capable of coming up with custom solutions for spaces that require a non-standard approach to furniture. This could be alterations to existing products or a complete furniture solution that spans an entire floorplate, enabling clients to simplify sourcing and create standards that streamline purchasing.

## Why choose us.

We recognize that spaces that rely on technology need to be adaptable and flexible, ready to keep pace with changes in technology. We know how to seamlessly integrate technology into adaptable furniture making it effortless to use. Comfort, functionality and durability go hand in hand.

With all of our production completed in-house, you can rely on the delivery and continuity of the finest quality furniture.

We pride ourselves on our outstanding reputation for building long-lasting client relationships that go well beyond one-time projects. We are a genuine partner to many universities, architects, interior designers and AV companies. It's why our network continues to grow.

We handle all-sized projects, from a conference centre requiring a basic presentation system, through to a multi-location university campus requiring a full suite of specialist furniture for all their learning spaces.

Don't just take our word for it. We are endorsed as the preferred specialist furniture supplier for many project tender submissions, due to our technical and commercial merit.

## OUR CLIENTS

We have collaborated with some amazing clients to create technology enabled furniture for their learning and work spaces.

### What our clients say...

My name is Peter Nanscawen and I am a Capital Works Project Manager at University of Melbourne (UoM), responsible for the capital and infrastructure upgrades in teaching spaces at UoM, the number one ranked university in Australia.

Three years ago, I was delegated to be part of a working group assembled to review teaching delivery points at the university. As our research evolved, we made enquiries with Podion and a developmental relationship was formed.

Podion proved to be excellent listeners with a brilliant capacity to fabricate a conceptual design. The service is very attentive and the ability to deliver on time, as well as to urgency time constraints, has proved invaluable in every instance.

The workmanship is the quality of luxury standards. As such, the Podion iterations of the UoM design have become the standard recommended in the UoM Design Guidelines and we are yet to find a supplier of comparable standard to compete with the Podion product.

We have installed approximately 200 new units to shared teaching spaces over the past 6 years. I have been extremely pleased with all our dealings with Podion, from initial concept design to multi-unit delivered, and particularly proud of the product, being both aesthetically pleasing and functionally compliant.

- Peter Nanscawen, University of Melbourne

### CORPORATE

Delivered for auditoriums, function rooms, theatrettes, meeting rooms & outdoor spaces

### EDUCATION

Proven to exceed the strict selection criteria of educational facilities worldwide.

### GOVERNMENT

Trusted for announcements, presentations, special events & training.

# CUSTOMISATION SERVICE

We understand that off-the-shelf furniture may not be the best fit for you.

As we design and manufacture in-house, we have the capacity to make alterations to existing products to meet your styling and functional needs.

## THE PROCESS

- 1 **Choose a lectern**  
We have podiums, touchdown points, multimedia and fully accessible lecterns to choose from.
- 2 **Configure the connectivity**  
Specify the exact HDMI, VGA, AUX, XLR, power outlets and racking requirements you need to meet your unique AV & IT requirements.
- 3 **Select options**  
To further enhance storage, functionality, portability and security.
- 4 **Add accessories**  
We have microphones, reading lights, mounting hardware and housings and more for an all-in-one solution.
- 5 **Make it your own**  
Add printed or illuminated logos, digital signage, vinyl wraps and paint or timber finishes.

ANYTHING IS POSSIBLE. CALL +61 (0)3 9708 6349

# BESPOKE SERVICE

We have collaborated with amazing clients to create technology enabled furniture for their learning and work spaces.

In fact, we have over 35 years experience working with universities, architects, interior designers and AV consultants across the public and private sectors.

## WHY WORK WITH PODION?

1

### We listen.

Everybody has different visions, ideas and requirements. The first step is to understand what you want to achieve. We then create 2D drawings and 3D renders to help you see how the furniture can work for you. We can even build prototypes prior to manufacture.

2

### We understand.

You have a budget. We know how to seamlessly merge technology into a custom solution that fits your budget, yet still achieves your vision. A solution that is long lasting and highly adaptable to rapidly evolving technology.

3

### We are capable.

We have the in-house resources, technical expertise and manufacturing capabilities to get the job done right. It's why we have such an enviable track record of exceeding architectural styling briefs, functional requirements and user needs.

4

### We deliver.

Our reputation to deliver excellence is evident by our long-lasting relationships that go well beyond one-time projects. It's why our network continues to grow.

ANYTHING IS POSSIBLE. CALL +61 (0)3 9708 6349

# SPACE PLANNING SERVICE

A carefully considered approach is essential to the success of any new space.

Our Space Planning Service provides a clear visual representation of possible solutions for your consideration, including product designs and room layouts.

## WHY CHOOSE PODION?

- 1 We know how to design spaces that are flexible, encourage collaboration and adapt with changing technology.
- 2 We know how to seamlessly merge technology into a custom solution that fits your vision and budget.
- 3 We have the in-house resources, technical expertise, manufacturing capabilities and the passion, combined with a 'can do' attitude, to deliver.

ANYTHING IS POSSIBLE. CALL +61 (0)3 9708 6349

# PODIUM LECTERN POD-4

Everything you need.  
Supreme comfort and functionality.

POD-4 integrates technology for an effortless presentation experience. Dual input panels offer custom configurations of HDMI, VGA, AUX and XLR inputs, Ethernet and charging outlets. An integrated cable management system keeps cables neatly stored.

Digital signage and built-in screen configurations provide an additional highlight that maximises audience engagement.

Electric height adjustment, a non-reflective inclined benchtop with metal rail stop and a cup holder within easy reach, ensures maximum user comfort.

Optional shelving options provides all the work space you will ever need. Non-marking, heavy duty castor wheels offer the perfect option for easy portability from one space to another.

Available in four models. With a choice of colours, finish, options and accessories, we guarantee there's a solution to suit the most discerning user, venue and branding requirement.

## MAKE IT YOUR OWN

Contact our in-house Design Team to discover how we can cater to your styling needs.

### Get creative with colours and finishes

We now offer custom vinyl wraps (either in full or partial) that gives you endless personalisation options. We still offer our gloss and matte paint finishes in the colour of your choice.

Anything is possible.

### Add your logo

Select from a range of applications for the logo panel: vinyl print, acrylic print or 3D laser cut.

An LED illumination strip above the logo panel ensures your logo doesn't go unnoticed. A switch gives you full control to turn this lighting on or off as you please.

## POD-4 SERIES

### POD-4

Cost effective option. Power and data ready and with logo panel.

### POD-4-FS

POD-4 with built-in screen for digital signage.

### POD-4-TS

POD-4 with a benchtop monitor embedded below a sheet of anti-glare glass.

### POD-4-DS

POD-4 with digital signage and a benchtop monitor.

**FEATURES**

**EXPAND YOUR WORKING SPACE**

**Dual slide out shelves**

These innovative shelves slide out to give you more working space on both sides.

\* Available on POD-4-TS and POD-4-DS

**Single slide out shelf**

This single shelf pulls out of the benchtop and provides additional space for laptop or notes on one side.

\* Available on POD-4 and POD-4-FS

**FEATURES**

**Portable**

Non-marking, heavy duty castor wheels allows you to easily relocate the lectern. Simply lock the brakes to ensure stability when in use. Perfect for flexible learning spaces which need adaptable furniture configurations.

**Electric height adjustment**

Simply push a button to quickly and silently, raise or lower the height of the lectern to your most comfortable height.

**Minimum height:** 785mm (31")

**Maximum height:** 1085mm (42")

## PODIUM LECTERN POD-X

An elegant, stylish lectern that delivers strength, durability and a flawless finish. Power and data ready.

**For the presenter,** there's electric height adjustment for maximum user comfort. Connect your external devices to the input panels for instant integration with your presentation equipment. Charging sockets ensures your devices never run out of power. The benchtop provides ample space to spread your presentation material.

**Make it your own with vinyl wrap or paint finishes.** Add options and accessories to enhance your presentation experience.

**A great choice for** use indoors and outdoors, training facilities, conference rooms, exhibition centres, boardrooms & any modern presentation space.

**Portable**

The intuitively designed base has built-in rollaway wheels, making POD-X effortless to tilt and push from one location to another.

**Electric height adjustment**

Simply push a button to quickly and silently, raise or lower the height of the lectern to your most comfortable height.

**Minimum height:** 785mm (31")

**Maximum height:** 1085mm (42")

Get as colourful and as creative as your want with vinyl wraps or paint finishes.

**NEW!** We now offer custom vinyl wraps (either full or partial) that gives you endless personalisation options. Our wraps are designed to give you the flexibility of changing the appearance of your lectern while protecting the original finish.

Or, select a gloss or matte paint finish in the colour of your choice. Can't decide? We can supply renders to show you different styling options before you buy.

All lecterns have a logo panel with a LED illumination strip above the logo panel to ensure your logo doesn't go unnoticed. A switch gives you full control to turn this lighting on or off as you please.

Interchangeable logo panel attaches to the lectern with magnets.

**CONNECTIVITY**

Input panels are located within easy reach below the benchtop and can be configured to your exact needs.

**Upper input panel**

**Lower input panel**

Custom lecterns

We can help you design the perfect lectern for your space.

Whether you need styling inspiration or customised functionality.

Anything is possible.

# PODIUM LECTERN MIMI & MIMI-FS

Staging lectern.  
Modern. Functional. Robust.

Incredibly versatile lectern that is lightweight and strong. With rollaway wheels, its effortless to relocate for storage or for reconfiguration of flexible learning spaces.

Within the steel body, there's concealed cable management with a cable access hole in the base. The inclined, non-reflective benchtop is stain resistant and easy to clean.

Showcase your logo on the top panel for maximum exposure in media coverage. There's also space for an additional graphic on the large front panel or the option of powerful built-in digital signage.

## EXPAND YOUR WORKING SPACE

Get more space for your laptop, documents and other miscellaneous items.

### Equipment shelf (standard)

- Perforated steel shelf
- Located directly under the benchtop
- Helps to keep laptops cool
- Three height adjustment settings, so your equipment is always within easy reach

### Extended equipment shelf (optional)

- MDF construction
- Easy to clean
- Three height adjustment settings
- Available as a left or right hand placement

Equipment Shelf

Extended Shelf - Left hand placement

Extended Shelf - Right hand placement

## BRANDING

Give your logo the best chance of being seen by adding it to the top panel. This is a highly visible area whenever someone publishes photos of the speaker on social media, websites and printed material.

You can also add any printed vinyl graphic to the larger panel on the front.

## DIGITAL SIGNAGE

The optional built-in monitor on the front panel gives you the power to instantly play moving images, slideshows or other digital signage solutions to support your presentation, event or company brand.

## FEATURES

# PODIUM LECTERN POD-CC

Stunning lectern suitable for a wide range of presentation spaces. Packed with AV & IT capabilities and storage.

There are two easy to use built-in monitors. Simply connect any source device to the HDMI ports to send high-definition digital audio and video to each monitor.

The benchtop monitor sits under a sheet of tempered, anti-glare glass. The benchtop is inclined, void of any sharp corners and a metal rail stop prevents items from sliding off. The front monitor is designed to work in vertical mode without any picture loss.

Easy to reach input panels provide access to power, external projectors and audio systems. An equipment shelf pulls out to expand working space.

The column features a lockable, hinged door that grants access to three adjustable storage shelves. The internal cable management system minimizes cable snagging to create a safe environment for all users.

An illuminated laser cut logo features prominently at the top of the lectern. This is a highly visible area whenever someone publishes photos of the speaker.

## FEATURES

Slide out equipment shelf for a laptop or documents.

Foldaway cup holder on door

## CONNECTIVITY

Input panels are located within easy reach below the benchtop and at the base of the lectern and can be configured to your exact needs.

### Upper input panel

### Lower input panel

## FEATURES

## MAKE IT YOUR OWN

The top panel offers a great opportunity to promote your business whenever photos of the speaker are published on social media, websites and in printed material.

Have your logo laser cut and illuminated in the colour of your choice. Illumination is fast becoming the most common solution for effective signage.

# PODIUM LECTERN POD-P

Robust, aluminium lectern. Supports basic AV integration. Branding and vinyl wrap options.

POD-P is not only elegant but strong and lightweight. The stable base footprint features four adjustable levelling feet. Electric height adjustment is available as an add on feature.

Powder-coated, it is extremely hard-wearing and forgiving if it is accidentally damaged.

The curved inclined benchtop is void of sharp corners and non-reflective.

The base features a cable access hole for neat cable management.

Optional accessories include the LED reading light and dual shock mounted microphones.

**Make it your own.** Transform POD-P into a premium advertising space by adding stunning, eye-catching vinyl wrap signage. Vinyl wraps can be easily removed, without damaging the lectern, allowing you to update and change the signage quickly.

# GAS LIFT LECTERN GLL

Ideal in many situations - as a small presentation stand, a mobile teaching station or even a collaborative desk.

Lightweight, durable lectern that has a wide base for stability and lockable castor wheels for easy portability.

There's an ergonomic handle that raises or lowers the height by 400mm for maximum user comfort. There's even room for a coffee cup and presentation items on the shelf below.

The flat MDF benchtop is void of any sharp corners and the lectern is powder-coated.

**Make it your own.** Contact us to discuss colour options.

#### Just some of the highlights:

- Height adjustability: 760-1140mm
- Benchtop: 600mmW x 400mmD
- Storage shelf
- Bag hook underneath benchtop
- Lockable castors (4)
- Wide base for stability

**FREESTANDING TOUCHDOWN POINT**

TDP-HA

Designed to accommodate a variety of users, height adjustment ensures everyone can access technology with ease.

**WALL MOUNTED TOUCHDOWN POINT**

TDP-WC

Bolting securely to the wall, this touchdown point is wheelchair accessible when mounted 940mm from the floor.

**FEATURES**

**Storage of equipment**

The steel chassis securely houses a 3U AV rack tray and 1U fixed rack strip. There's also space for a micro PC and an optional cutout in the front panel. This enables users to access the PC without having to unlock the panel.

**Access to racks and cables**

Our touchdown points deliver the accessibility you expect for the installation, trouble shooting and service of equipment;

- Lockable front panel (combination or keyed lock)
- Removable benchtop
- Removable side plates
- Removable fins
- Removable column cover (TDP-HA only)

**Natural convection**

Ventilated panels and cable clearways promote airflow that helps keep equipment cool, preventing overheating, and extending device life.

**Electric height adjustment**

The push button, electric lift mechanism on TDP-HA adjusts the height of both the working surface and rack mounted equipment.

**Smart cable management**

Concealed cable management keeps equipment well organized, minimizing cable tangling and snagging, reducing clutter and improving installation and servicing workflow.

**Durability**

- Commercial grade MDF benchtop
  - Seamless curved edging void of any sharp corners
  - Resistant to staining and easy to clean
- Powder-coated steel body, column and underside maintenance panel

**Benchtop cut out service**

Take advantage of our machining service that offers custom benchtop cut outs at the time of manufacture.

- Minimizes installation time at your end
- Ensures consistency of hole sizes and locations
- Reduces unnecessary dust on site

# Touchdown Points.

Freestanding or wall mounted, Touchdown points allow the educator to easily control the technology of the room while moving around interacting with students.

The educator is encouraged to become less of a lecturer, and more of a facilitator or mentor. This is the reason these Touchdown points are quickly becoming an essential addition to many active learning space in schools and universities.

**For the presenter,** technology is within easy reach on the generously size benchtop. A metal rail strip stops pens and other small items falling off the back.

**For the integrator,** the lockable enclosure is designed to store rack equipment and a micro PC and features natural convection throughout.

**Make it your own** with customised styling and functionality solutions to suit your requirements.

## Discover Orion.

The Next Generation Accessible Lectern

### Orion.

Packed with features. Orion sets a new benchmark for wheelchair accessibility and AV/IT integration.

- ✓ Accessible footprint & roll under space
- ✓ More equipment access points
- ✓ More security lock options
- ✓ Enhanced natural convection

It's all in the small details.

#### ORION-1

- **Storage:** 8U (5U front, 3 U rear)
- **Benchtop:** 950mmW x 850mmD
- **Logo panel:** 550mmW x 380mmH
- **Electric height adjustment:** 800mm – 1100mm

#### ORION-2

- **Storage:** 16U (10U front, 6U rear)
- **Benchtop:** 1500mmW x 850mmD
- **Logo panel:** 110mmW x 380mmH
- **Electric height adjustment:** 800mm – 1100mm

**FEATURES**

**Electric height adjustment**

Designed to accommodate everyone; from tall adults, children, to those seated or requiring wheelchair access.

The push button, electric lift mechanism adjusts the height of both the working surface and rack mounted equipment to your most comfortable height.

Minimum height: 800mm

Maximum height: 1100mm

**Wheelchair accessible**

**Lectern footprint**

The U-shaped footprint provides stability. Inside clearance allows for easy wheelchair entry and exit.

**Roll under knee space**

The internal chassis for the rack mounted equipment allows for plenty of knee space for those in a wheelchair.

**Technology at your fingertips**

There's plenty of space on the ergonomic shaped benchtop to integrate technology so that it is within easy reach for all users.

The commercial MDF board benchtop features curved edging, void of any sharp corners.

The non-reflective 2Pac finish is durable, resistant to staining and simple to clean.

Take advantage of our custom benchtop cut out service at time of manufacture.

**More equipment access and security**

Integrators now have more access for the installation and service of equipment than ever before. We have also added new locking options throughout. Choose between keyed or combination locks. Take a look...

**Intelligent storage of equipment**

The steel chassis stores technology to support the most demanding presentation applications.

**On the audience side,** the hinged logo panel unlocks and drops down to reveal 1-2 x 5U rack trays. Simply slide out the trays to access equipment, connections and cabling. The new access panel at the rear of the 5U rack provides additional access to equipment.

**On the presenters side,** there are 1-2 x 3U slide out racks. Optional security panels prevents undesired tampering of equipment.

**Natural Convection**

Ventilated panels and rack trays helps to radiate the heat away from the enclosure. Built-in cable clearways promotes airflow.

**MAKE IT YOUR OWN** 

**Add your logo, colours and finish**

Our in-house Design Team can customise lecterns to your exact requirements - in a spectrum of beautiful colours and finishes.

It's all about helping you create a lectern that truly matches your brand and architectural needs.

We can even supply you concept 3D renders to bring your ideas to life.

**ADD OPTIONS**

**Impress your audience with digital signage**

The **optional HDMI monitor** allows you to display moving images or company branding with a professional look.

**Save time with benchtop cut outs**

Get **custom cut outs** at the time of manufacture. This;

- Ensures consistency of hole sizes and locations,
- Minimizes installation time at your end, and
- Reduces unnecessary dust on site.

**Get even more equipment access**

The **optional split benchtop** gives the integrator additional access to rack mounted equipment.

Mounted on tension hinges, the benchtop simply flips upwards and remains in position while in use.

Security is never an issue. A keyed or combination lock on the side prevents thieves from opening the benchtop.

**Move your lectern from one space to another**

Heavy duty and non-marking **optional castor wheels** allow for easy portability. Simply push the lectern then lock the wheels to ensure stability. Perfect for those flexible learning spaces.

**Specify colours and finish**

Custom colours and finishes are available for the benchtop, apron and fins. Our in-house design team can provide 3D rendered drawings to help you decide on the final colour palette.

# Multimedia Lecterns.

Proven to exceed the strict selection criteria of universities, colleges and schools worldwide.

The MML series delivers a range of lecterns that suit small to medium sized training rooms, collaborative learning spaces to the largest of lecture theatres.

For the integrator, there's seamless integration of AV & IT equipment, 8-40U rack space, internal cable management, natural convection and effortless, secure accessibility to equipment.

For the presenter, electric height adjustment is standard, along with twin cup holders to minimise the risk of nasty spills. Ergonomically designed benchtops put all working peripherals within easy reach.

Constructed from robust materials, our steel frames are low maintenance, our commercial grade MDF worktops are hard-wearing and our 2Pac finishes are resistant to moisture, staining and simple to clean.

Select from our range of accessories and options that further enhances the functionality, storage, security and portability of each lectern.

### MML-3

**16U rack space**

Storage in front 10U

Storage in rear 6U

**Benchtop** 2000mm x 920mm

**Logo panel** 1150mm x 370mm

### MML-3-B

**40U rack space**

Storage in top 16U

Storage in base 24U

**Benchtop** 2000mm x 920mm

**Logo panel** 1150mm x 370mm

### MML-3-L

**16U rack space**

Storage in front 10U

Storage in rear 6U

**Benchtop** 2000mm x 920mm

**Logo panel** 610mm x 570mm

### MML-3-L-B

**40U rack space**

Storage in top 16U

Storage in base 24U

**Benchtop** 2000mm x 920mm

**Logo panel** 610mm x 570mm

**FEATURES**

**Intelloquent storage of equipment**

The MML series provides ergonomic curved benchtops that provide a large, flat usable surface for all working peripherals to be within easy reach.

The internal steel frame provides secure rack storage for all the AV and multimedia technology you need. Racks are cleverly mounted side by side in both the front (audience side) and rear (presenters side).

There's also the supersized base that boasts 24U storage capacity for your most demanding presentation spaces.

**Accessibility**

Integrators appreciate 360° access for the installation, trouble shooting and service of equipment via the;

- Removable benchtop
- Removable logo panel
- Removable side plates
- Removable column cover
- Removable base cover
- Access hatches in the base
- Cable knockouts in the base
- Access holes through to floor box
- Optional slide out AV racks
- Optional slide out trays

**Smart cable management**

Concealed cable management keeps equipment well organized, minimizing cable tangling and snagging, reducing clutter and improving installation and servicing workflow.

**Natural convection**

Ventilated panels and cable clearways promote airflow that helps keep equipment cool, preventing overheating, and extending device life.

**Security**

Robust steel construction ensure security along with the lockable logo panel securing the front, optional security plates securing the rear and a lockable 24U base on larger lecterns.

**Electric height adjustment**

Anyone from a child to a tall adult can present in comfort. Simply push a button to quickly and silently, raise or lower the entire work surface and rack mounted equipment to your most comfortable working height.

Minimum height  
**785mm or 31"**

Maximum height  
**1085mm or 42"**

ADD OPTIONS

**Portability**

Heavy duty non-marking castor wheels allows you to push the lectern from one space to another. Lock when in use.

**Accessibility**

Pull out the 19" 5U rack to access equipment, connections and cabling. Durable steel construction with a black powdercoat finish. Elongated vent holes helps to keep equipment cool.

**Security**

Eliminate the prospect of equipment tampering from thieves with our tough 3U security panels - with or without cutouts.

**Storage**

Expand your work surface for miscellaneous items with out slide shelves. Sold in pairs for the MML-3 series.

**Benchtop cut out service**

Take advantage of our machining service that offers custom benchtop cut outs at the time of manufacture.

- Minimizes installation time at your end
- Ensures consistency of hole sizes and locations
- Reduces unnecessary dust on site

# ACCESSORIES

Integrate your control systems, iPads, tablets, touchscreens and other interface panels, securely to any work surface.

**Chromebase Mini Desk Mount**  
MML-CDMM-02

**MIMO Touchscreen Desk Mount**  
MML-MIMO-BTM

**iPad & Tablet Desk Mount**  
MML-IPE

**Crestron TSW-1060 Desk Mount**  
MML-TPMB01

**Crestron MPC3-302 Desk Mount**  
MML-TPMB08

**AMX Massio 8 Button Desk Mount**  
AMX-M8B-01

**Crestron MPC-M10 Desk Mount**  
MML-TPMB04

**Microphone clamp**  
LECT-CLAMP

**Microphone**  
LECT-MIC

**Reading light**  
LECT-LIGHT

Controller housings can be customised to fit your exact requirements.

**Slide out tray**  
MML-SOT

19" Slide out equipment tray. Solid steel construction and durable powder-coated finish. Elongated vent holes for optimum air circulation.

**Slide out AV rack**  
MML-SOR

19" 5U ventilated slide out AV rack. Solid steel construction and durable powder-coated finish. Ensures your equipment is kept cool and easily accessible.

**Castor wheels**  
MML-CAST

Lockable castor wheels, allowing for effortless manoeuvrability and secure positioning during use. Not available on all models.

**Security cover plate**  
MML-PCCP

Eliminate the prospect of tampering by thieves with this tough 158mm x 514mm 3U security panel with cut out.

**Slide out shelf**  
MML-SOS

Durable, commercial grade slide out shelf that expands your work surface. Not available on all models.

**Storage drawer**  
MML-POD

Solid steel storage drawer. Provides convenient storage of miscellaneous items. Not available on all lecterns.

**Single battery charger holder**  
MML-BCH

Well ventilated battery charger mount. Flush mounted with the work surface.

**Double battery charger holder**  
MML-BCDH

Well ventilated, flush mounted double battery charger mount. Cover plates also available.

# COLLABORATIVE TABLES

Enabling group discussions and sharing of ideas using participants laptops, tablets and phones.

Collaborative tables work well as a stand-alone solution for a conference room, boardroom, training room or huddle space. They also seamlessly blend with our lecterns and touchdown points to create a complete solution for large active educational spaces.

We accommodate any table size, tops, finishes and colours with table designs to support any number of team members,

We include options for shared displays, device charging and AV & PC equipment connectivity, storage and control.

When you buy from Podion, you can trust our solutions exceed the strict selection criteria of educational facilities worldwide.

ANYTHING IS POSSIBLE. CALL +61 (0)3 9708 6349

# COLLABORATIVE AV TROLLEYS

Designed for mobile, agile and collaborative spaces. Height adjustable. Durable.

Simply roll the AV trolley between multiple spaces to share your media equipment. Set up it up as a digital signage display during special events or as a permanent display in areas where you can't wall mount.

Durable construction makes it ideal for commercial use, plus it meets the strict selection criteria of educational facilities.

### Highlights

The adjustable bracket mounting system enables you to securely mount a 49" to 65" screen and adjust the overall height of the display and camera mount.

Electric height adjustment means you can raise or lower the display mount with one smooth motion.

Built-in cable management keeps your cables organized and hidden from view. The lockable back door allows for equipment bracket access. Ventilation throughout provides natural convection.

### Options

- Lockable castors or the footprint bolts to floor
- Keyboard and mouse holder located at the back on a tension hinged mount
- Side handles for easy manouravbility
- Benchtop (327mm W x 35mm D) provides space for a computer, media player or keyboard. It's removable and height adjustable.

# WARRANTY

- Metal and timber work, powder coating and painting – Five (5) Year Parts and Labour
- Mechanically function components, such as castor wheels – Five (5) Year Parts and Labour
- Height adjustment components, including the actuator leg, control box, switch and relevant cables – Five (5) Year Parts and Labour
- Electronic peripherals added to the lectern including monitors, cable boxes, plugs and switches – One (1) Year Parts and Labour
- Internal wiring (excluding height adjustment wiring) – One (1) Year Parts and Labour

# ORDERING

## HOW TO REQUEST A QUOTE ONLINE

1. Go to our website, [www.podionglobal.com](http://www.podionglobal.com)
  2. In the top menu, click “Products”.
  3. In the drop down menu, click on a product category.
- \* You will be shown all the products in your selected category.

4. Click on a product’s photo.
- \* This will open the product page where you can learn about the product, its features, options and browse galleries.

5. Click the “Add to Request” button to add the product to your cart.

6. Review the products in your cart, then click the “Proceed to Request Checkout” button.
- \* You will be asked to enter your shipping details.  
 \* You will not be asked for payment details.  
 \* You will receive a free, no obligation quote to your email.  
 \* Simply reply to the email or call us to accept the quote.

## DISPATCH

### How long will it take to dispatch my order?

Dispatch time depends on stock levels and whether you are purchasing a standard lectern or a custom made lectern.

#### Dispatch time on standard products in stock

Product	Details	Dispatch Time
Standard lectern	Logo not required	2-3 Business Days
Standard lectern	Logo required	7-10 Business Days from receipt of artwork
Standard lectern	Custom benchtop cut-out required	10-15 Business Days

#### Dispatch time on standard products out of stock

Product	Details	Dispatch Time
Standard lectern	Logo required	3-4 Weeks
Accessories	Logo required	2-3 Weeks

#### Dispatch time on custom (manufactured to order) products

Product	Details	Dispatch Time
Custom lectern	Multiple modifications required	4-6 Weeks
Custom prototype	For a lectern or component	4-6 Weeks

## SHIPPING

### Where do you ship to?

We ship to anywhere in the world including Dubai, Mexico, New Zealand and USA.

### Delivery time and cost within Australia

We offer free shipping to most destinations within Australia\*.

Delivery location	Delivery estimate	Delivery cost
Capital cities	2-3 Business Days	FREE*
Regional / Rural	4-5 Business Days	FREE*
Australia wide	Express / Urgent Delivery	Contact us for a quote

#### \* Free shipping terms and conditions

- Free shipping applies to the delivery of lecterns to the Mainland Australia and Tasmania, excluding post codes 0880, 0881,0885, 2898, 2899, 4803, 6161,6508, 6711, 6712, 6731, 6733, 6798, 6799 and 7256.
- For excluded areas, we can ship to the nearest capital city at no cost. Further freight costs then apply.
- Free shipping does not apply to accessories shipped separately.

### Delivery time and cost to all other countries

Contact us for a competitive shipping quote and delivery time estimates.

### What if my order is urgent?

We can arrange express delivery within Australia. Freight cost applies.
