

DESCRIPTION

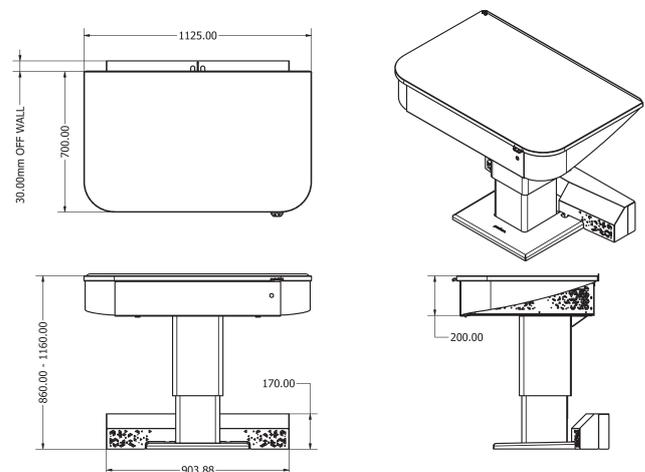

Touchdown points are fast becoming an essential component for any learning space that relies on technology. TDP-HA offers a functional work zone for educators. Freestanding against the wall, it enables the educator to easily control the technology of the room and move around to interact with students. Perfectly suited to school classrooms, university training rooms and active learning spaces.

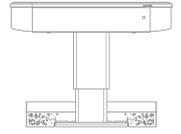

KEY FEATURES

- Total rack space: 4RU
- Electric height adjustment
- Secure lockable enclosure
- Smart cable management system
- Natural convection cooling
- Durable steel body and base
